1. INTRODUCTION

This report presents the results of the activities related to SEKRET Action D.1 from the start of the project (01/01/2014) until the 9th month of the project (30/09/2014), but the project Action D.1 will continue until the end of the project (31/12/2016) with the production of new Action and Deliverable results. The SEKRET web site will be updated during the project life according to the project progress.

UNIPISA was the responsible of the creation of the SEKRET web site, containing information about the SEKRET project development and results. The web site created has been clearly and visibly marked with Life logo.

Moreover, the partners added information about the project to their corresponding corporate web sites and created a link to the web site created by UNIPISA.

The target groups of the SEKRET website are:

- Project partners
- General public

2. SEKRET WEBSITE STRUCTURE

This report presents the results of the activities related to SEKRET Action D.1 from the start of the project (01/01/2014) until the 9th month of the project (30/09/2014), but the project Action D.1 will continue until the end of the project (31/12/2016) with the production of new Action and Deliverable results. In fact the SEKRET web site will be updated during the project life according to the project progress.

During March 2014 the website www.lifeSEKRET.com has been published and it is network-accessible. The site will be periodically updated and it will ultimately contain, in its public or reserved areas, all the documents produced during the project's activities according to the requirements foreseen in the Action D.1 of the SEKRET project:

- project description;
- objectives;
- actions;
- progress;
- results.

In the home page (Figure 1) are present the links through which all the project's documents and information are accessible (examples in Figure 2).

The main characteristics of the SEKRET website are:

- web space (unlimited web contacts-statistics) until December 2021;
- home page with a personalized graphic solution and construction of a total of about 50-55 web pages;
- description sections of the web site in Italian and English; the technical documents produced during the project will be elaborated in Italian and in English by UNIPISA;
- a reserved area containing a document section dedicated to the beneficiaries. The area is accessible with user-id and password;
- counting the number of contacts (number of visits of the home-page).

the utilisation of the web site is prolonged until 31th December 2021 and on this date the site will be transformed in static HTML pages and included in the UNIPISA servers

3. CONCLUSIONS

This report presents the results of the activities related to SEKRET Action D.1 from the start of the project (01/01/2014) until the 9th month of the project (30/09/2014), but the project Action D.1 will continue until the end of the project (31/12/2016) with the production of new Action and Deliverable results. In fact the SEKRET web site will be updated during the project life according to the project progress.

As previously showed in the description of the website structure (web site figures and screen shots etc.), the SEKRET web site contains clear and detailed information about the SEKRET project activities, results, events and beneficiaries. In addition the SEKRET website displays an hyperlink to the LIFE programme website.

The groups targeted in this action are:

- Project partners
- General public
